

Geography Learning Journey

CONTEMPORARY

Brexit
Migration and Britishness
Ebola, poverty and development

FINAL Y8 ASSESSMENT

Climate Change

Hazards ASSESSMENT

Fire management

HURRICANES AND WILDFIRES

Katrina Case Study

Hazard Risk

Types of Hazard

Flooding and change

What is geography?

Role of Education

Wildfires

Hurricanes

Economic development

Development

YEAR 8

China

What is development, how is it measured?

Aid v. Trade

Image and data analysis ASSESSMENT

Urban v. Rural

Population pyramids

3 Gorges Dam

Ghost cities

ASSESSMENT: Japan and Boxing Day tsunami comparison. Causes and effects

Blood diamonds

BRICS nations

Population and data

One child policy

China assessment.

DANGEROUS WORLD

WATER WORLD

Tsunami processes

Volcanoes

Formation of Earth

Bangladesh

Flooding – causes and effects

Controls on climate

Weather or climate

What skills do we need to be successful in KS3 geography?

Earthquakes

Tectonic test

Plate tectonics

Why is flooding more of a problem in developing Countries? ASSESSMENT

Cumbria, UK

River Processes

Climate charts (numeracy)

Baseline assessment

GREECE, AMERICA AND THE UK

YEAR 7

How is a developing Country different?

Assessment?

Democracy around the world

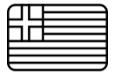

End of KS2 Assessment

Which of these countries is the most developed?

Why do people settle in particular areas?

Where is Greece?

The background of America.

What are the main differences?
