edulink one

Parent Guide for Accessing Homework at Samuel Whitbread Academy

A Parent's Guide to Getting Started with "Edulink One" Homework

Homework

The homework section operates as a standalone homework system where teachers can set homework through Edulink One. Teachers have the ability to upload homework using Google Classroom if this has been enabled by their school. However, this is a visual of the homework only. Students can see what homework has been set when it is due and they can also mark it as completed.

The student and parent will see the homework in a list format; this can be organised by clicking on the headings.

The student and parent can then click on the text of the homework to read the requirements. To exit this just click on the **X** in the top right corner.

Once the student has completed the homework assignment, they should click the **Completed** button to notify their teacher the work has been done. It is important to note that parents can only view set homework.

For work that is to be handed in, the teacher may ask for the work to be submitted hard copy, emailed or sent to a Teams or Google Classroom location or any shared drive solution the school may use.

Please Note: Students can add their own homework using the **Add Homework** option. This will not be reviewed by the teacher but can be used to help students create a study plan, self-assessments, etc...

They would need to provide a title, subject and due date and some text of what this activity is about. This could be used to show teachers extra work completed.
