

Pearson BTEC Level 3 National Extended Certificate in Applied Science: Summer Task

An in depth poster or presentation, you have a choice on what you do this on...

1. Cell Theory – Include diagrams, structure and function.
2. Atomic Structure and The Periodic Table
3. Waves – Types of waves and their characteristics

It can be on paper or done electronically. I have gone into more detail when talking through the presentation. You will not be required to present your poster or presentation.

In the PowerPoint there is the link to the specification to help and your GCSE books will also be of use.

Any problems revisit the PowerPoint that I have spoken over or email me: spage@bestacademies.org.uk
